APPI MUSLIM FRIENDLY INFO

Since we've been developing ourselves how to make foreign guest's stay more happy in APPI, we have successfully increased the numbers of the guests from many countries for several years. To be one of the world-class resorts, we've kept studying of what a lot of the people need during stay. On this time, we've been challenging how to welcome Muslim guests.

On May in 2014 when we had a chance to talk with MHC CO., LTD. which well-knows about Muslim, we asked a lot of questions about requirements to be able to accept the people. By getting the company's advice and researching for what Muslim tourists mostly need, we've made the perfect circumstances for them as possible as we can. (Please see the right info)

After being ready for Muslim people to accept, we've invited them who are living in our area or visited from Malaysia to know how they feel. We had the various responses, but we've made the needs which the most tourist can stay here with feeling safe and comfortable.

So, please just visit us to see how you feel here. We would deeply appreciate it if you could give us the ways to improve us better and better...happier and happier for Muslim guests in APPI.

APPI SERVICE FOR MUSLIM GUESTS

■FOOD

- NO use of pork, food and seasoning made from pork.
- NO use of seasoning made from alcohol.
- USE halal meats (chicken & beef) in the package with halal logo.
- USE & SERVE all food and seasoning certificated by MHC CO., LTD.

■KITCHEN

- CLEARLY KEEP halal foods in container at the particular space in refrigerator and freezer in order to separate from non-halal ones.
- CLEARLY KEEP new cooking utensils (cutting boards, knife, bowl, pot, etc) with halal sign.
- CLEARLY KEEP halal seasoning at the particular space.
- CLEARLY SEPARATE unused plates at the particular space from non-halal and use the particular handcraft when we move them.
- CLEARLY SEPARATE when washing the plates by the particular kitchen sponge after well-washing the used sink for non-halal and putting new warm water.

■RESTAURANT

- STRIVE to separate Muslim guests from non-Muslim in the restaurant so that Muslim guests can have the meals in comfortable circumstances.
- PREPARE private space for Muslim guests.

*Sometimes we would use public space by the situation.

*In the restaurant, non-halal food & drink are served to non-Muslim guests; however, we strive to serve for Muslim guests as the above information.

If you have a question, please feel free to contact us.

Thank you very much for understanding.

RESPONSE ABOUT APPI MUSLIM FRIENDLY SERVICE

*Ms. Amirah Che Amat
Iwate University, Japan in 2014*

I am Amirah binti Che Amat, fourth year student, Iwate University. On 4th October 2014, I and another 2 muslim friends went to APPI Grand Hotel to visit the Halal Restaurant and having our lunch meal there.

Firstly, I want to wish a lot thanks to you, APPI's manager, the Chef of Halal Restaurant and all the officers who were trying the best to serve Muslim in Japan and providing Muslim friendly facilities.

To be honest, I was surprised and impressed at the time I take a look into the restaurant's kitchen. That was beyond my expectation. All the halal kitchen's equipment and the racks being separated from the non-halal. For example, the dishes, spoons, forks, cups, bowls, pan, cutting board, knife and etc. Even by using the same oven to cook halal food and the same sink to wash halal dishes, but the cooking and washing process are separate with the non-halal. They are using the oven to cook halal food first and after that they will clean it and continue cooking the other food. Moreover, they are using the different cooking oil for halal food. Same like the sink, even the sink is the same, but the washing process and the washing sponge also being separated.

Moreover, the freezer that using to keep halal meats and food, they use the different containers and all the containers in the freezer are neatly being covered. Plus they have a specific space for the halal food containers in the freezer with the red tape around it. So that, the non-halal food will never being put at the halal space. And all the halal equipment are being labelled 'ハラル用 (For Halal)' on it, with the bright color for people easily notice it.

Furthermore, APPI Grand Hotel also providing Muslim Friendly praying room with the direction of the kiblat label, praying mat and the jug for wudhu'. This is a very impressive effort for muslim. I am sure that all muslim in Japan would be glad to know about this.

I expect from now on, the muslim visitor in Japan or specifically in Iwate will be increased steadily.

Regards,
Amirah Che Amat
Iwate University, Japan
